MISSION & VISION

Japara Neighbourhood House is a registered provider of childcare, abiding to all standards and regulations set by government. Our aim is to provide an exciting and engaging educational program that provides children with opportunities to develop their social, emotional, and physical skills. Whilst being flexible and affordable to allow all families the opportunity to access our services.

Japara Early Years Philosophy

As a team at Japara Neighbourhood House we dedicate ourselves to providing a safe, caring, welcoming, supportive environment for all children, families, visitors, and students. We pride ourselves in providing all children with the opportunity to explore the environment, experiences, and their sense of self within an environment where they can enrich and enhance their skills through play. We are a team that believes in empowering children to make their own decisions and therefore we respect children's choices and interests and encourage children to participate in experiences of their own choosing.

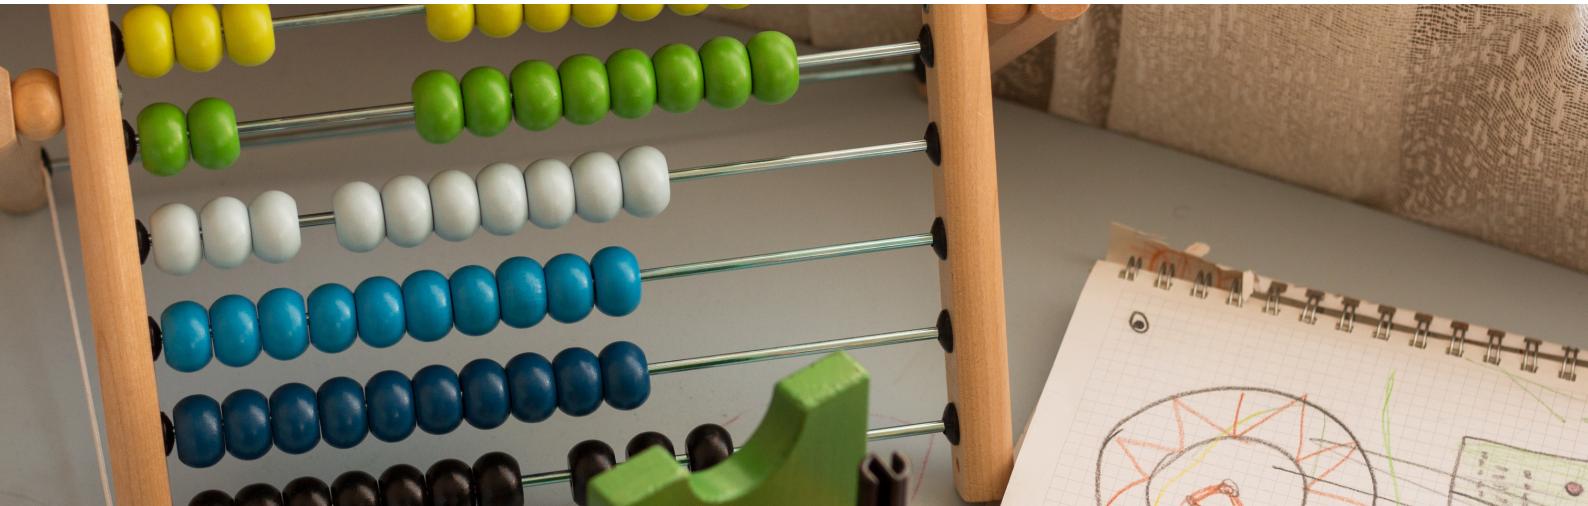

Family Involvement

We like to encourage involvement, interactions and communication between parents, educators, and children. Parents are welcome to spend time within our service to assist in further developing connections to the educators and share their skills or culture with the children within our classes.

We welcome any comments or suggestions you may have regarding our program planning and love to incorporate the different ideals and interests of our families into our experiences.

Japara Neighbourhood House is a not-for-profit service; therefore we may from time to time ask families to attend a working bee or participate in fundraisers to help purchase new equipment and resources for the children at Japara and in support of the wider community groups and charities.

Orientation

Before commencing at Japara Early Years Occasional Care, you will be introduced to the team. We recommend that parents come for two organised visits before your child's commencement.

First visit: Parent and Child visit and the parent stays in the play space with their child for the entire visit. This may occur when the family tours the service.

Second visit: Parent and Child visit, Once the child is settled, the parent can move out of sight of the child (perhaps to have a coffee/tea at the main office) for a small period of time (around half an hour)

Orientation gives the parent and the child time together with the educators, allowing them to get to know each other before the child is left. Children may also feel more comfortable in the new setting whilst having the security of a parent nearby. If the child needs more sessions with a parent present, you are more than welcome to arrange more visits based on the individual needs of each child and family.

Therefore, we request that as much as possible, packet food and refined foods should be left at home. Mealtimes should provide learning opportunities for healthy lifestyles and cultural differences.

Anaphylaxis / Food Allergies / Asphyxiation

Anaphylaxis and Food Allergies are extremely serious and can be life threatening.

Please ensure your child has previously consumed any food products you send with them to Japara Early Years Childcare and is not considered to have any sort of intolerance to these ingredients. We ask that all foods are age appropriate and where necessary items like grapes and large blueberries be cut in half to avoid risk of asphyxiation

We request you check all food products before packing them into your child's lunchbox. Educators will monitor lunchbox items, unsuitable items will be removed from your child's lunch box and given back at the end of the session.

We are a nut free service which means we do not allow the onsite consumption of nut products of any kind; including spreads, whole nuts or nuts as an ingredient (such as in muesli bars).

Birthdays / Birthday Cakes

If it is your child's birthday, we are happy to celebrate with them. We are unable to have a party for your child but happy to provide a list of who your child plays with at the service should you wish to invite their friends to your celebrations.

You are welcome to bring in a cake / cupcake that is purchased from the supermarket (as this includes the ingredients and use by date and has been made in a kitchen meeting Food Safety requirements).

If your child has an intolerance or allergy and would not be able to eat cake, it is recommended that you provide an alternative option to keep at the centre for any celebrations that may occur on days they attend (we can freeze small amounts of cake).

ACCIDENTS & GRIEVANCES

Accidents and Emergency Care

If your child is injured whilst at care, the educators of the session will write up an accident report along with any treatment provided. Educators will contact families informing them of an accident that involves a head injury or results in a cut or burn. Parents will need to sign and date the form when they collect their child to agree they are aware of the injury in case of the need for further medical treatment.

In the event of a serious injury where an ambulance is required, the Educator will firstly call 000 and follow the instructions of the operators before then contacting the parents.

Emergency Evacuations and Procedures

The children and educators regularly participate in Emergency Evacuations throughout the year. This is to ensure that the children and educators know what to do if the service had to be evacuated. In the unlikely event the service is evacuated, educators would escort the children to the evacuation meeting points. Families will then be contacted by phone to collect their child/ren. Collection procedures will still apply.

Complaints / Grievances

If you have any concerns regarding the care of your child or Japara policies and procedures, please follow these guidelines:

1. You are welcome to directly speak to the staff member in the room

Educators may plan an excursion away from the centre to extend the children's learning. These excursions may be a visit to the main building to visit with the elderly, walking over to Elizabeth bridge park to see the ducks or utilising the Annex and its large space/projector screen. During an excursion, educators observe high educator/ child ratios at all times. Families will be provided with a general excursion form and seeking permission for these events.
